

PATENT  
09/899,615

1 In the Claims:

2

3 9. (currently amended) In a World Wide Web communication  
4 network with user access through a plurality of data  
5 processor controlled user interactive receiving display  
6 stations, a method for buying products offered from a  
7 plurality of World Wide Web sites comprising:

8 offering products from said plurality of World Wide Web  
9 sites;

10 displaying a shopping cart representation at a  
11 receiving display station;

12 enabling a user at said receiving display station to  
13 load into said shopping cart a plurality of representations  
14 of products offered from said plurality of World Wide Web  
15 sites;

16 enabling said user at said receiving display station  
17 to select to buy a set of said loaded products; and

18 transmitting to each of a said plurality of World Wide  
19 Web sites offering the products selected to buy by said  
20 user, billing data required of said user to buy said  
21 products.

1 10. (currently amended) The method for buying products of  
2 claim 9 wherein said World Wide Web sites offering products  
3 provide Web pages specifying the offered products.

1 11. (original) The method for buying products of claim 10  
2 further including the steps of:

3 enabling the user to switch from one Web page offering  
4 products to another Web page offering products; and

5 moving said shopping cart from said one Web page to  
6 another when said user switches from said one page to  
7 another.

PATENT  
09/899,615

1 12. (currently amended) The method for buying products of  
2 claim 11 wherein said moved shopping cart includes products  
3 loaded into said shopping cart from said one Web page.

1 13. (original) The method for buying products of claim 12  
2 further including the step of enabling the user to  
3 selectively remove products loaded into said shopping cart.

1 14. (currently amended) The method for buying products of  
2 claim 12 wherein said moved shopping cart further includes  
3 cumulative cost data of the loaded products from all of said  
4 World Wide Web sites.

1 15. (currently amended) The method for buying products of  
2 claim 11 further comprising:

3 a World Wide Web browsing process at said receiving  
4 display station including:

5 said step of displaying a shopping cart representation  
6 at a receiving display station;

7 said step of enabling a user to load into said shopping  
8 cart a plurality of representations of products offered from  
9 said plurality of World Wide Web sites;

10 said step of enabling said user to select to buy a set  
11 of said loaded products; and

12 said step of transmitting said billing data to each of  
13 a plurality of World Wide Web sites offering the products  
14 selected to buy by said user.
